BASIC AMENITIES & HEALTH

As per NFHS IV, in Madhya Pradesh, only 33.7 percent of households have access to improved sanitation, while the figure for Khargone is also not very different from the state average as just 33.2 percent of household have access to improved sanitation. The same source suggests that only 31.7 percent of household in Khargone and 29.6 percent of household in state use clean fuel for cooking. Apart from sanitation facility and clean fuel, 90.9 percent of household have improved drinking water source in Khargone. It also provides data that only 83.9 percent of household in Khargone have electricity while 89.9 percent of household in the state have access to electricity.

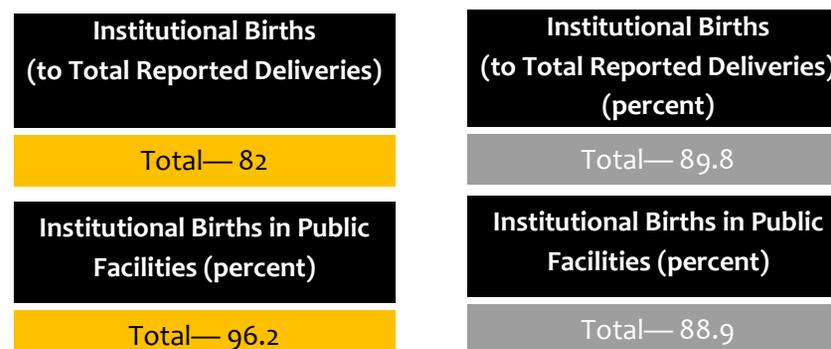

In terms of health facilities, besides a district hospital, there is a network of sub-health centres (SHCS/Sub-HCs), Primary Health Centres (PHCs) and Community Health Centres (CHCs) across the district. CHCs have the highest spread, followed by PHCs and then sub-health centres. Hence, CHCs and PHCs cater to a higher proportion of population than sub-health centres. The Sub-Centre is the most peripheral and first contact point between the primary health care system and the community. There is a PHC for 6 Sub-Centres while CHCs act as a referral unit for 4 PHCs.
