Blockwise Literacy Rate: By Location

Source: Census 2011

As urban population is present only in the Bageshwar block, the urban literacy rate could be accounted only in this block with 90.74 percent. Rural Bageshwar has a literacy rate of 79.61 percent. Kapkot block has both the lowest rural and total literacy rate with 75.33 percent and 75.33 percent respectively. Bageshwar block has the highest rural as well the total literacy rates with 81.53 percent and 82.38 percent respectively.

SOCIO-ECONOMIC PROFILE

The three sectors of the economy – primary, secondary and tertiary – reflect the direction of growth of any region. In Bageshwar the tertiary (services) sector contributed the maximum share of 53.4 percent to Gross District Domestic Product (GDDP) which is slightly higher than that of Uttarakhand's share of 51.9 percent to Gross State Domestic Product (GSDP) in 2013-14. The district's primary (agricultural) sector contributes about 1/4th to GDDP (26.51 percent) while the secondary sector's contribution is 20.08 percent. The GDDP of Bageshwar in primary sector is more than double compared to that in Uttarakhand.

On considering Net District Domestic Product (NDDP), Bageshwar has 25.91 percent of share in the primary sector, 19.45 percent secondary sector share, while 54.64 percent of the income comes from the tertiary sector. Uttarakhand, as a state, gets 10.31 percent of its output (NSDP) from the primary sector, one third from the secondary sector (33.43 percent); but is certainly led by the tertiary sector (56.26 percent). The district's share in NDDP to the primary sector is more than that of the state and secondary sector and tertiary lag behind that of the state.

The per capita income or average income measures the average income earned per person in a given area in a specified year. Bageshwar's per capita income (Rs. 68,730) is less than that of the state (Rs. 1,12,428). Low per capita income is usually an indicator of poverty in a region. According to the Planning Commission, Government of India, the proportion of population living below poverty line is highest in both in rural (72.12 percent) and urban (64.38 percent) Bageshwar. Rural Bageshwar comprises 89.92 percent of the poor population, while urban Bageshwar covers 10.08 percent of its total population.

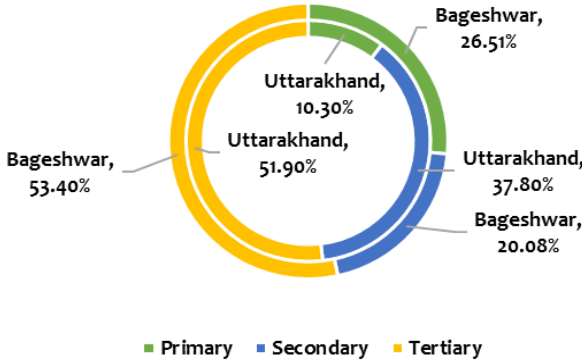

As per Census 2011, the percentage of main workers in the total workforce in Bageshwar is 47.57 percent which is higher than the State total workers (38.39 percent).

Among the four categories, Cultivators form about 68.85 percent of all workers which form the highest percent, while agricultural labourers form 7.27 percent. The catchall category 'Other Workers' form 21.46 percent of the entire working population of the district which is much lower than that of the cultivators. It includes forms of employment in secondary and tertiary sector. The workers in household industry forms 2.42 percent.

BASIC AMENITIES & HEALTH

The overall percentage of households having access to improved drinking water source is 83 percent which is lower than the state average (92.9 percent) as per NFHS IV, 2015-16. The same survey reports that 67.4 percent household have improved sanitation facilities which is higher than state average of 64.5 percent. Apart from drinking water and sanitation facility, only 23 percent of household use clean fuel for cooking compared to state average of 51 percent. However, in the district, 97.5 percent of household having electricity which is equal to the state average (97.5 percent).

In terms of health facilities, besides a district hospital, there is a network of sub- health centres (SHCS/Sub-HCs), Primary Health Centres (PHCs) and Community Health Centres (CHCs) across the district. CHCs have the highest spread, followed by PHCs and then sub- health centres. Hence, CHCs and PHCs cater to a higher proportion of population than sub- health centres. The Sub-Centre is the most peripheral and first contact point between the primary health care system and the community.

DLHS III data reports that among all the districts of the state, Udham Singh Nagar has the best coverage with regard to health sub-centres, where a single sub-centre is accessible to 9976 persons. On the other hand, a sub-centre in Bageshwar is accessible to more than 4132 persons, and ranks 7th from top in terms of coverage.

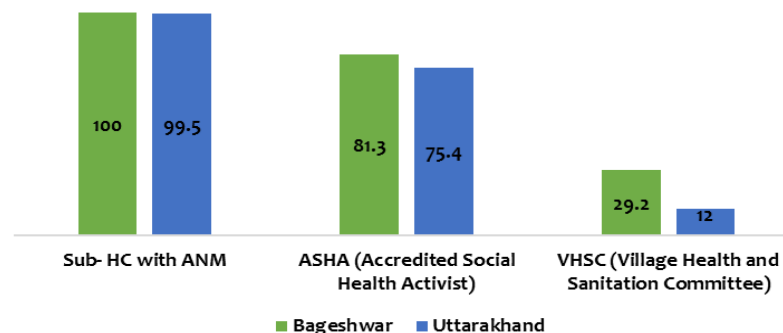

Primary Health Centres coverage in Bageshwar is for approx. 14940 persons, thereby ranking 8th among districts of Uttarakhand in terms of accessibility. Hardwar cover 39851 people in the district ranking top.

In terms of coverage by Community Health Centre coverage in Bageshwar, they cater to 79219 persons and ranks 5th from top. Among other districts, Hardwar ranks highest in terms of coverage by Community Health Centers and Champawat ranks lowest.

In terms of accessibility of healthcare facilities in Bageshwar, DLHS III reports that 16.7 percent of villages have Sub-Health Centers within the villages. Comparing at the state level, 29.5 percent of villages have Sub-Health Centers within the villages.

The chart shows the percentage of Auxiliary Nurse & Midwives (ANM), number of Accredited Social Health Activist (ASHA) workers and Village Health Nutrition and Sanitation Committee (VHNSC) in Bageshwar and Uttarakhand. It appears from the chart that in Bageshwar the total percentage of Sub Health Centres (Sub-HC) having ANM is 100 whereas its 99.5 percent for Uttarakhand. Similarly, 81.3 percent of villages in Bageshwar have ASHA, against 75.4 percent villages in Uttarakhand. About 29.2 percent of villages have VHSC in Bageshwar, while only 12 percent villages in Uttarakhand have VHSC.
